

QUALITY, SAFETY & ENVIRONMENTAL POLICY

CARR Components is committed to implementing and maintaining an integrated management system that will ensure Customers requirements are met on time and right the first time through continually improved processes, efficiency and attention to detail. It is the responsibility of all staff to achieve this aim by working together as an efficient and effective team.

CARR Components' commitment to the health, safety and welfare of all employees is reflected in its goal of being an injury free workplace by identifying and eliminating workplace hazards, ineffective processes and behaviour that could cause accident, injuries or illness. This commitment extends to our environmental responsibility with the assurance that any work conducted on site will be in an environmentally responsible manner that will protect the surrounding environment and prevent pollution.

This integrated system shall be in accordance with the requirements of the AS/NZS ISO 9001:2000 (Quality), TS16949: 2002 (Quality) WorkCover SABS Scheme Level 2 and AS/NZS ISO 14001 (Environmental) series of standards and will be considered in all business practises and activities as defined.

Objectives:

- Ensure the integrated Quality, Safety and Environmental Management System is implemented, maintained, monitored, measured and continuously improved through audits and appropriate performance indicators.
- Promote a performance standard of zero defects and an environment of zero tolerance.
- Ensure all employees and subcontractors are aware of their personal duty of care for the health, safety and welfare of themselves as well as their fellow employees and towards the environment.
- Comply with all applicable statutory, legal and regulatory obligations in the management of health & safety of our staff and our environmental responsibility.
- Identify, assess and manage activities that have the potential to cause injury or impact the environment. (Refer to CARR Components Environmental & Safety Improvement Plan - Environmental and Safety Improvement Plan)

The quality of our work, safety of our workplace and obligation towards the environment is the responsibility of every CARR Component's employee, subcontractor and supplier. All policies and procedures will be followed to ensure a consistent, safe and productive work environment. Training and awareness of Quality, Safety and Environmental issues will be an ongoing commitment by CARR Components management to its employees, neighbourhood & the greenhouse challenge. The integrated management system will be subject to continual improvement based upon ongoing feedback by users and customers to ensure we meet the standards we set ourselves daily to achieve our goals.
